How our process works

1. [Purchase](#)

Purchase can be made through our secure online payment platform. Should you wish to discuss your statement needs pre-purchase with one of our team, please email us directly.

2. [Personal details form](#)

Following purchase, you will be emailed a personal detail form to fill in – giving us the early details we need to get a feel of your statement desires. This form will be attached to your confirmation of purchase email. Please fill this form in with as much detail as possible giving us sufficient basis to begin work on your statement.

3. [Work begins](#)

Your order will be assigned to a specialist writer based on the subject you are applying for. We will be in touch with you throughout the process – and will be in contact if we need further details to script your statement. We pride ourselves on our personal process – and therefore will be contactable during the process should you have any questions or if you would like to comment on your statement. We aim to tailor the statement exactly to your desire and are therefore more than happy to take your suggestions throughout.

4. [Delivery](#)

We will deliver your completed statement to you via email. As with all of our packages we offer a 7-day period from delivery where we may request changes to be made free of charge. We ask you to consider the UCAS word count when suggesting changes and therefore outlining the omissions for the new content to replace.

Why choose us?

- Unlike other UCAS statement writers, we offer a bespoke and personal process, where we are happy to chat to you throughout the process. We hope that getting to know your writer instils confidence in our process.
- Undergraduate and postgraduate statements can be catered for.
- We have a wealth of experience in the Oxbridge process.
- All our writers are UK based experts, happy to help with overseas applications.

We're 5  and we're immensely proud!

"Best of all with a week of submitting the UCAS application form, my daughter received offers from all 5 of her Russel Group unis. We think the personal statement had a lot to play in the final offers."
